INTERESTS

Human-Computer Interaction, UI/UX Design, AI in Education, Critical AI Literacy

EDUCATION

University of Michigan Doctorate of Philosophy in Information Just Tech Lab - <i>Advised By:</i> Dr. Patricia Garcia	08/2025 — Present Ann Arbor, Michigan
Georgia State University, GPA: 4.05/4.00 Bachelor of Science in Computer Science, Concentration in Data Science, Minor in Sociology	08/2021 — 05/2025 Atlanta, Georgia

PUBLICATIONS

RESEARCH PROJECTS

Graduate Research Assistantship at the University of Michigan, School of Information	05/2026 – Present
• <i>Student Experiences with Generative AI Systems (full study design)</i> – Designed and conducted a mixed-methods user research study examining how undergraduate students adopt and interact with generative AI systems for programming tasks. – Conducted literature review, Qualtrics survey, and semi-structured user interviews to identify user needs, behaviors, pain points, and opportunities for improving learning experiences. – Synthesized qualitative and quantitative findings to identify patterns in students' experiences and translate research insights into actionable design considerations for generative AI systems.	
Student Researcher at the University of Michigan CSED Research Group	01/2026 – 06/2026
• <i>Faculty Experiences with Active Learning Methods (data collection)</i> – Conducted interviews with post-secondary faculty to understand their challenges in adopting Peer Instruction. – Iteratively designed the user experience of the interactive textbook platform Runestone Academy used by 1000+ students.	
Student Researcher at Critical Participatory Action Research Course (led by Dr. April Baker-Bell)	01/2026 – 05/2026
• <i>BMEA Youth Leadership Development Program (research assessment)</i> – Conducted focus groups with the parents of students in the program to understand the impact of BMEA initiatives. – Worked alongside a collective of researchers to code interviews and memos on initial findings.	
Undergraduate Researcher at Clemson University Human and Technology (HAT) Lab	01/2025 – 05/2025
• <i>Human-Centered AI Systems (systematic review)</i> – Coded and synthesized human-centered AI research to identify patterns in human participant demographics, design characteristics, study methodologies, and evaluation practices. • <i>Computing Educator Interviews (data analysis)</i> – Applied grounded theory methods to analyze instructor interviews across R1 institutions. – Synthesized findings to inform evidence-based recommendations for equitable pedagogical approaches.	

TEACHING

Co-Instructor at the University of Michigan School of Information Summer Camp	07/2026 — 07/2026
• Designed curriculum and led the workshop “Thinking Critically About Large Language Models” centered on critical AI literacy for high school students focused on the logic of large language models (LLMs) and beginner Python instruction.	
Co-Instructor at Black Girls Code	05/2026 — 07/2026
• Taught 25 students aged 9-15 computer science concepts and beginner game design fundamentals with Endless Studios.	
Undergraduate Teacher Assistant at Georgia State University	09/2023 — 05/2025
<i>Introduction to Python Programming 2 & Software Engineering Capstone</i> • Worked with professors to manage grading and office hours sessions for course sizes of 100-200 students.	
Mathematics Student Assistant at Georgia State University	09/2021 — 05/2022
<i>College Algebra</i> • Delivered 1:1 tutoring for recession courses to over 300 students.	

INTERNSHIPS

- Lawrence Livermore National Laboratory**, *Machine Learning Researcher* 05/2025 — 08/2025
 Data Science Summer Institute (DSSI)
 Developed deep learning models for low data volumes to inform stakeholders of potential solutions.
 Tools: Python (PyTorch, Sklearn)
- Microsoft**, *Software Engineer* 06/2024 — 09/2024
 Collaborated on the user interface design of Copilot for Microsoft 365 by optimizing the cloud-based application integration.
 Tools: TypeScript
- Collins Aerospace**, *Software Engineer* 01/2023 — 08/2023
 Improved field personnel efficiency and quality of procedures through automated scripting of software assessments.
 Tools: Python (Matplotlib, Pandas, Numpy), C++
- Georgia Community Action Association**, *Data Analyst* 05/2022 — 01/2023
 Created and presented extensive data-based outcomes for informed decision-making across Georgia agencies.
 Tools: Python, Tableau

INVITED TALKS

- April Baker-Bell, **Ashlyn Campbell**, María Paula Ghiso, Gerald Campano ““No Research on Us Without Us”: Reimagining Graduate Researcher Preparation Through Community-Led and Community-Accountable Research” American Educational Research Association (AERA) 2027
- **Ashlyn Campbell** & Kaila Dawkins “Building Community for Graduate Applications” ACM Tapia Conference 2026

MENTORSHIP & OUTREACH

- **Program Assistant**, University of Michigan, Rackham PACE (Rackham Merit Fellowship) 05/2026 — Present
Manage the design and development of the Canvas, Dropbox, and student database.
- **Advisory Board Member**, Alliance for Interdisciplinary Innovation in Computing Education 03/2025 — Present
- **Ambassador**, University of Michigan, Rackham PACE (MSI Connect) 10/2025 — 05/2026
- **Program Coordinator & Founder of Stars**, RISE in Computing 05/2023 — 05/2025
Created a network of 50+ freshmen Black women, 25+ junior/senior Black women to increase retention through community-centered projects and research.
- **Mentor**, IAMSTEM 05/2025 — 07/2025
Led weekly sessions with high school students to share guidance on computer science.
- **Executive Board Member**, National Society of Black Engineers (NSBE) 09/2023 — 06/2024
Designed artifacts for media and communications on programming for students.

AWARDS & FELLOWSHIPS

- Graduate Research Fellow, National Science Foundation (**18%** acceptance rate - NSF GRFP) 2026
- GEM Fellow, The National GEM Consortium 2025
- Rackham Merit Fellow, University of Michigan 2025
- Outstanding Senior Award in Computer Science, Georgia State University 2025
- FOCUS Scholar, Georgia Institute of Technology 2025
- William R. Hearst Scholar, Georgia State University 2025
- Emerging Leaders in AI Fellow, Black in AI (BAI) 2024
- NCWIT Scholar, IEEE Black Issues in Computing Education (BICE), *Dominican Republic* 2023
- Benjamin Gilman International Scholarship, *Bali, Indonesia*, U.S. Department of State 2023
- Sprout Social Scholar, United Negro College Fund (UNCF) 2023
- WomenLead Scholar, TEDWomen Conference 2023
- Special Mention Award, Morgan Stanley Hackathon 2022
- Software Engineering Fellow, Management Leadership for Tomorrow (MLT) 2023

SKILLS

- **Programming Languages:** Python, Java, SQL, C/C++, JavaScript, HTML/CSS
- **Data & AI Tools:** Python (PyTorch, Pandas, Matplotlib, Scikit-learn), SQL, Alteryx, Tableau, QGIS, Jupyter, OpenAI Codex, Microsoft Copilot, Google Gemini
- **Technologies & Frameworks:** Figma, Git, Subversion, Docker, Linux, Azure, Flask, Node.js, React Native, Microsoft Office Products (Powerpoint, Excel, Word)
