INTERESTS

Human-Computer Interaction, Design, AI in Education

EDUCATION

University of Michigan 08/2025 — Present
Doctorate of Philosophy in Information Ann Arbor, Michigan
Advised by Dr. Patricia Garcia and Affiliated with the BIIT Lab

Georgia State University, **GPA: 4.05/4.00** 08/2021 — 05/2025
Bachelor of Science in Computer Science, Concentration in Data Science, Minor in Sociology Atlanta, Georgia

PUBLICATIONS

RESEARCH PROJECTS

Graduate Research Assistantship with The Just Tech Lab 05/2026 – Present
- *User Research on Student-AI Interaction for Programming Coursework*
  - Conducted an extensive literature review, Qualtrics survey, and semi-structured interviews to identify AI user needs, behaviors, pain points, and opportunities for improving learning experiences.
  - Conducted thematic analysis on qualitative data to communicate patterns in students' experiences.
  - Translated research insights into actionable design considerations for researchers to improve generative AI systems.

Student Researcher with Dr. Barbara Ericson 01/2026 – 06/2026
- *Faculty Experiences with Active Learning Methods*
  - Conducted interviews with post-secondary faculty to understand their challenges adopting Peer Instruction.
  - Collaborated with other researchers to iteratively improve the user experience of the interactive textbook platform Runestone Academy used by 90,000+ students and 4,500+ teachers each year.

Student Researcher with Dr. April Baker-Bell 01/2026 – 05/2026
- *Assessment of the BMEA Youth Leadership Development Program (YLDP)*
  - Conducted focus groups with the parents that participated in BMEA YLDP to understand the impact of initiatives.
  - Worked alongside a collective of researchers to qualitatively code interviews and create memos on initial findings.

Undergraduate Researcher at Clemson University, Human and Technology (HAT) Lab 01/2025 – 05/2025
- *Systematic Review of Human-Centered AI System Research*
  - Coded and synthesized human-centered AI research published at ACM CHI to identify patterns in human participant demographics, study methodologies, and evaluation practices.
- *Analysis of Computing Educator Pedagogical Approaches Across R1 Institutions*
  - Applied grounded theory methods to construct relevant themes of instructor interviews.
  - Synthesized findings to inform evidence-based recommendations for equitable pedagogical approaches.

TEACHING

Co-Instructor at the University of Michigan, School of Information Summer Camp 07/2026 — 07/2026
- Designed curriculum and led the workshop "Thinking Critically About Large Language Models" centered on critical AI literacy for high school students focused on the logic of large language models (LLMs) and beginner Python instruction.

Co-Instructor at Black Girls Code 05/2026 — 07/2026
- Taught 25 students aged 9-15 computer science concepts and game design fundamentals with Endless Studios.

Undergraduate Teacher Assistant at Georgia State University 09/2023 — 05/2025
Introduction to Python Programming 2 & Software Engineering Capstone
- Worked with professors to manage grading and office hours sessions for course sizes of 100-200 students.

Mathematics Student Assistant at Georgia State University 09/2021 — 05/2022
College Algebra
- Delivered 1:1 tutoring for recession courses to over 300 students.

INTERNSHIPS

Lawrence Livermore National Laboratory, *Machine Learning Researcher* 05/2025 — 08/2025
Data Science Summer Institute (DSSI)
Developed deep learning models for low data volumes to inform stakeholders of potential solutions.
Tools: Python (PyTorch, Sklearn)

Microsoft, *Software Engineer* 06/2024 — 09/2024
Collaborated on the user interface design of Copilot for Microsoft 365 by optimizing the cloud-based application integration.
Tools: TypeScript

Collins Aerospace, *Software Engineer* 01/2023 — 08/2023
Improved field personnel efficiency and quality of procedures through automated scripting of software assessments.
Tools: Python (Matplotlib, Pandas, Numpy), C++

Georgia Community Action Association, *Data Analyst* 05/2022 — 01/2023
Created and presented extensive data-based outcomes for informed decision-making across Georgia agencies.
Tools: Python, Tableau

INVITED TALKS

- (*Submitted*) April Baker-Bell, **Ashlyn Campbell**, María Paula Ghiso, Gerald Campano ""No Research on Us Without Us": Reimagining Graduate Researcher Preparation Through Community-Led and Community-Accountable Research" American Educational Research Association (AERA) 2027
- **Ashlyn Campbell** & Kaila Dawkins "Design Thinking Workshop: Building Community for Graduate Applications" ACM Richard Tapia Conference 2026

MENTORSHIP & OUTREACH

- **Advisory Board Member**, Alliance for Interdisciplinary Innovation in Computing Education 03/2025 — Present
- **Ambassador**, University of Michigan, Rackham PACE (MSI Connect) 10/2025 — Present
- **Program Assistant**, University of Michigan, Rackham PACE (Rackham Merit Fellowship) 05/2026 — 08/2026
  Managed the design and development of the Canvas and student database.
- **Program Coordinator & Founder of Stars**, RISE in Computing 05/2023 — 05/2025
  Created a network of 50+ freshmen Black women and 25+ junior/senior Black women to increase retention through community-centered projects and research.
- **Mentor**, IAMSTEM 05/2025 — 07/2025
  Led weekly sessions with high school students to share guidance on computer science.
- **Executive Board Member**, National Society of Black Engineers (NSBE) 09/2023 — 06/2024
  Designed artifacts for media and communications on programming for students.

AWARDS & FELLOWSHIPS

- Graduate Research Fellow, National Science Foundation (**18%** acceptance rate - $159,000) 2026
- GEM Fellow, The National GEM Consortium 2025
- Rackham Merit Fellow, University of Michigan 2025
- Outstanding Senior Award in Computer Science, Georgia State University 2025
- FOCUS Scholar, Georgia Institute of Technology 2025
- William R. Hearst Scholar, Georgia State University 2025
- Emerging Leaders in AI Fellow, Black in AI (BAI) 2024
- NCWIT Scholar, IEEE Black Issues in Computing Education (BICE), *Dominican Republic* 2023
- Benjamin Gilman International Scholarship, *Bali, Indonesia*, U.S. Department of State 2023
- Sprout Social Scholar, United Negro College Fund (UNCF) 2023
- WomenLead Scholar, TEDWomen Conference 2023
- Special Mention Award, Morgan Stanley Hackathon 2022
- Software Engineering Fellow, Management Leadership for Tomorrow (MLT) 2023

SKILLS

- **UX Research Tools:** Figma, Qualtrics, Miro, Jira, Confluence, Microsoft Office (Excel, PowerPoint, Word)
- **Data & AI:** Python, R, SQL, Tableau, Alteryx, QGIS, Jupyter, OpenAI Codex, Microsoft Copilot, Google Gemini
- **Development:** Java, C/C++, JavaScript, HTML/CSS, Git, Docker, Linux, Azure, Flask, Node.js, React Native
